### Övergripande uppdragsbeskrivning

We are now looking for 2 Business Analysts within the Clearing domain, to our customer. □

Job description: □

You will be working with a project with the aim to deliver a fully-fledged clearing solution to an international client. You will be working in a project together with other Business Analysts and cooperating with developers, testers and project managers. It is important that you are driven, have good problem solving skills and communication skills. Additionally, your written and spoken English must be excellent. □

Specific requirements include knowledge of Clearing, with previous experience as a Business Analyst or equivalent. You need to have been actively part of a software product development team. You must be proficient in different CCP risk models (such as SPAN and VaR), as well as risk analysis, stress testing and back testing. Additionally, an understanding of methodologies on risk aggregation on different levels (client / participant and CCP) is a requirement. Any background in the mathematics field is beneficial. □

Remote work can be accepted to a very limited extent. The large majority of the work needs to take place at the Stockholm office. □

### Skallkrav

Good knowledge of Clearing, with previous experience as a Business Analyst or equivalent

Previous experience as team member in software product development team  
Proficient in different CCP risk models (such as SPAN and VaR)  
Very good knowledge in analysis, stress testing and back testing  
A very good understanding of methodologies on risk aggregation on different levels (client / participant and CCP)  
Fluent in English, both written and spoken.

### **Börkrav**
